About me

By teaching programming during the past few years I found myself in programming language JavaScript. Every day I try to progress to new knowledge and do not shy away from learning and work. I'm looking to expand my knowledge, while also giving my best to my employer

Personal projects:

- MARIOPLAN
  -place where you post your projects together with your friends.
  .https://marioplan-afa22.web.app/

- Few more personal projects you may find on my Github account:
